

DS555

Digital portable two-way radio

The DS-555 radio is Delta's newest 16 Channel digital DMR radio. Featuring the same advantages as the DS580 but no screen, the DS555 is the perfect solution, worker radio.

The slimline design still retains the DS4 series' IP67 waterproof rating and durable body in a new slimmer and tougher frame. The DS555 radio also allows for time divisional frequency splitting to allow a single private frequency to be used as two distinct talk channels.

The radio also supports single frequency repeater modes for Delta's Single Frequency Repeater allowing a simplex channel to be repeated extending range and coverage for your entire team.

Advanced functions

- Caller ID and contact list
- Programmable emergency button
- TDMA frequency splitting

IP67

The DS-580 is waterproof and dustproof with an IP67 rating, meaning this radio is fully submersible in 1m of water for 30mins and the radio will still operate.
